PROFILE

Motivated Computer Science and Engineering student with foundational knowledge in Java, Python, SQL, and Web Development. Experienced in building academic projects and completing internships. Actively improving problem-solving skills through coding platforms like HackerRank and LeetCode. Seeking opportunities to apply technical skills in real-world applications.

EDUCATION

B.E – Computer Science and Engineering

Sethu Institute of Technology, Kariyapatti

Expected Graduation: March 2027

HSC (Higher Secondary Certificate)

TVS Higher Secondary School, Madurai

Completed: March 2023 | Score: 84%

PROJECTS

1

Food Ordering Application

- Developed a Java-based application integrated with MySQL to manage orders and user data efficiently.

2

Movie Booking System

- Built a Java and MySQL-based system to handle ticket booking, scheduling, and user management.

3

Disease Detection System using Deep Learning

- Designed a deep learning model to identify diseases from input data/images with improved accuracy.

4

Emergency Alert System using Smart Street Lights

- Developed an IoT-based solution to detect emergencies and trigger alerts through smart street lighting.
- Enhanced public safety by enabling faster response using automated alert mechanisms.

ADDITIONAL INFORMATION

Actively practice coding on platforms like HackerRank and LeetCode to enhance problem-solving skills.

Strong interest in software development, web technologies, and emerging technologies.

Eager to learn, contribute, and grow in a dynamic work environment.
